

Guaranteed Standards of Performance - How we're doing

Guaranteed Service Standards

Every quarter, we'll publish our Domestic guaranteed service standards of performance on our website. These are the standards we need to uphold in order to provide a high level of service to our customers around appointments and other promises made under the Standards of Performance Regulations.

Below you'll see information on all cases where the regulations applied during Q2, Q3, Q4 2022 and Q1 2023. We'll check which of these didn't meet the service standards e.g. if we failed to attend an agreed appointment.

Where there has been a 'failure' on our part, customers might be entitled to receive a standard compensation payment of £30 (applicable to both gas and electricity) applied to their account. If you are due a payment, and we fail to pay you this within 10 working days, you may also be due a further additional standard payment of £30.

Definitions

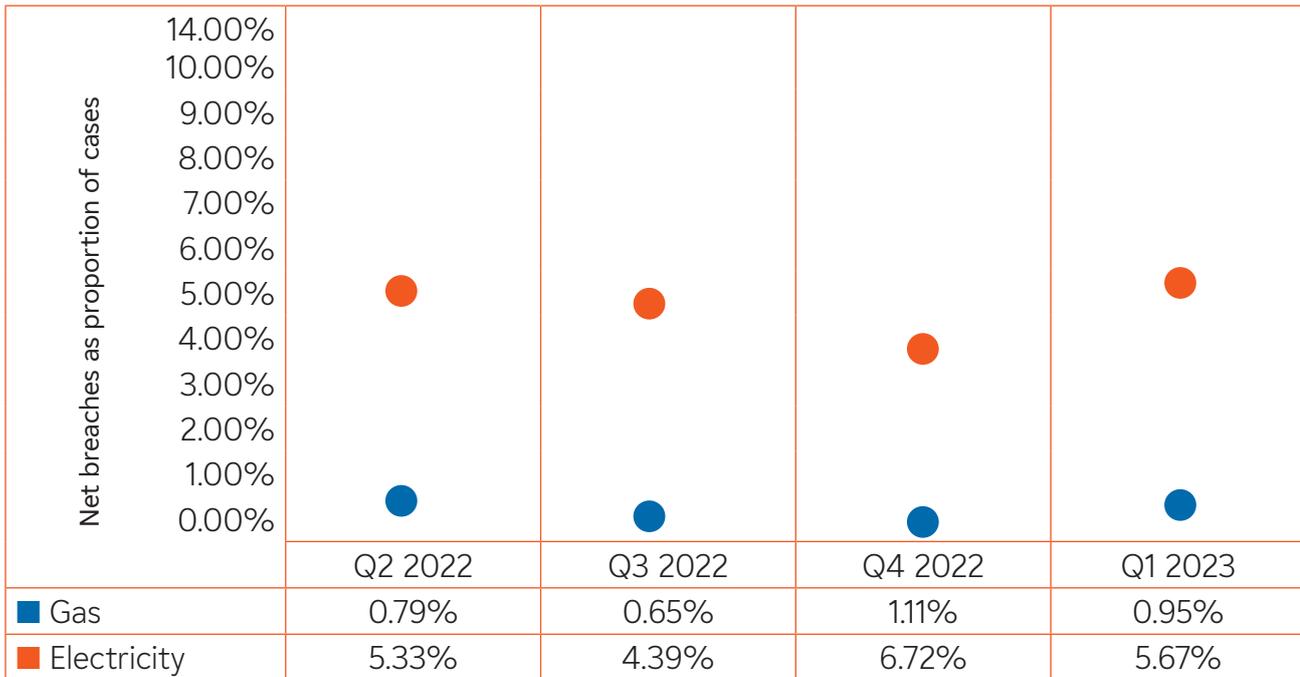

Appointment: A scheduled time and date when we've arranged to visit your home

Breaches: When we've failed - for whatever reason - to meet the relevant standard of performance

Exempt breaches: If we have a valid reason for not meeting the standard then it may be classed as 'exempt'.

Net breaches: The total number of breaches once those which are 'exempt' are taken into consideration

Proportion of cases where we breached the rules governing standards of performance.

What we pay domestic customers as a result of breaching the rules
